

Woodland Operations Business Training Session

***THE TWO - DAY SEMINAR is for
All Audiences of the Forestry Industry –
Including:
Equipment Contractors – Harvesting, Construction,
Site Preparation,
Contract Supervisors – Utilities, Oil and Gas,
Woodlands Consultants
Involved In the Day to Day Business
Operations***

This combination of courses is the perfect match for any forestry business owner hoping to understand and apply the administrative tools necessary for success. At the end of the two days, you will have **completed three courses and learned the basics** of preparing a business plan, financial reporting, and ownership and operating calculations. Some of the learning outcomes include:

- ❖ Developing a business plan
- ❖ Preparing income statements, balance sheets and budgets
- ❖ Identifying factors affecting machine profitability

A certificate will be issued upon the successful completion of the exam.

The training session, including registration is funded by Northern Alberta Development Council (NADC).
